Patient Consent to ePrescriptions

Motion Orthopaedics has implemented ePrescribing in our office. ePrescribing is a federally mandated initiative that requires all physicians prescribe in this manner by 2011. ePrescribing software sends prescriptions over the internet to your pharmacy in a safe, secure way, through the same technology used by credit card companies. This helps protect the privacy of your personal information. ePrescribing software also lets your doctor see important information, like drug interactions and your prescription history.

The benefit to you:

- Less confusion over handwritten prescriptions or unclear phone calls
- Reduced possibility of medical errors
- Less chance of adverse drug reactions
- Fewer trips to drop off at the pharmacy
- A safer, faster, easier way to get your prescription filled

Patient Consent

I agree that Motion Orthopaedics may request and use my prescription medication history from other healthcare providers or third party pharmacy benefit payors for treatment purposes.
